

Calcul mental 1 :

Priorités de calcul

Tu es prêt ?

Question 1

A

$$25 - 25 \times 4$$

Question 1

A

$$25 - 25 \times 4$$

Écris

Question 2

A

$$14 - (10 - 2 \times 3)$$

Question 2

A

$$14 - (10 - 2 \times 3)$$

Écris

Question 3

A

$$3 \times (4 + 1)$$

Question 3

A

$$3 \times (4 + 1)$$

Écris

Question 4

A

$$(27 - 11) \times (5 - 3)$$

Question 4

A

$$(27 - 11) \times (5 - 3)$$

Écris

Question 5

A

$$53 - (7 - 3 \times 3)$$

Question 5

A

$$53 - (7 - 3 \times 3)$$

Écris

C'est fini !

On corrige,
change de stylo.

Correction

- Question 1 :

- $25 - \underline{25 \times 4} = 25 - 100 = -75$

- Question 2 :

- $14 - (10 - \underline{2 \times 3}) = 14 - (10 - 6) = 14 - (4) = 10$

- Question 3 :

- $3 \times \underline{(4 + 1)} = 3 \times 5 = 15$

- Question 4 :

- $\underline{(27 - 11)} \times \underline{(5 - 3)} = 16 \times 2 = 32$

- Question 5 :

- $53 - (7 - \underline{3 \times 3}) = 53 - (7 - 9) = 53 - (-2) = 53 + 2 = 55$
